

Management Accountant

- **Printing/Packaging Industry**
- **Around \$60K + 13% super**
- **Multi-faceted challenges**

Due to their professional and innovative approach to business, our client, a thriving subsidiary of a successful global market leader has maintained a long standing relationship of quality and profitability that is held in high regard throughout their industry.

The above position, available due to internal promotion, carries responsibility for the preparation of monthly management information, budgets and estimates incorporating such activities as cash flow projections, monthly reconciliation of WIP and Finished Goods, maintenance of foreign exchange records and variances, cash payments and back-up for Micropay. The position reports directly to the Finance Manager and will include other Accounting/Finance projects from time to time.

The highly motivated person we are seeking will be degree qualified in a relevant Accounting/Finance or related discipline (CPA or CA preferred). A minimum of 2 years in a Manufacturing environment along with well refined communication skills, computer literacy and an analytical/commercial approach are essential for success in this role. Experience in Hyperion Business Modelling software and/or Activity Based Costing would be advantageous.

If your aspirations and achievements meet the above, please fax or email a BRIEF resume to Roger Hilton in confidence, quoting reference number P9001.
